> Museum of Sydney

> Anzac War Memorial

> Justice and Police Museum

> Art Gallery of NSW

## Central Sydney Landmarks

The first European settlement in Australia was established on the shores of Sydney Cove (now Circular Quay) and The Rocks following the arrival of the First Fleet in 1788. Through exploration and the search for arable land, the Colony soon spread westward towards the Blue Mountains. The history of Australia's indigenous people goes back many tens of thousands of years before that time. Good places to start to learn more about Aboriginal history and heritage and the early years of European settlement are The Rocks Discovery Museum and the Museum of Sydney .
